

Quality Policy

Technetix provides products and services worldwide related to the design, project management and supply of technical components for broadband networks, including the associated tools and consumables.

Technetix strives to remain the market leader in our field of expertise, meeting our customers' needs through providing high-quality and innovative products and services.

All colleagues are responsible for their contribution towards this vision and must be made aware of how their role impacts our ability to achieve it.

Our ethos at Technetix is to listen, innovate and deliver, and our quality policy is driven by the following principles:

- Creating products & services that meet our customers needs and expectations
- Embedding a quality & compliance mindset throughout our business processes and supply chain
- Making every effort possible to enhance customer satisfaction

By adopting the standards outlined by ISO 9001:2015, we are committed to the principles of continuous improvement, ensuring we review and look to improve the effectiveness of our quality management system.

Furthermore, Technetix is committed to ensuring all compliance requirements, either obligatory or optionally adopted, are satisfied.

This policy is approved for implementation and distribution to any interested parties.
